### Project Description

\*Working Title:

\*Rationale:

\*Methods:

\*For ethical and pedagogical reasons, all students must submit a [student-initiated ethics protocol document](#) to the course instructor (TBD), even if a valid protocol already exists, by the "Ethics submission" date indicated on the previous page.

**For this proposed project, the advisor has indicated that formal ethics protection will be formally secured via:**

- The above-mentioned student-initiated protocol submission, if the research is conducted within our faculty and does not fall under an existing protocol.
- An existing or submitted UoT REB protocol led by the KPE faculty advisor. Note: The advisor can just submit a minor ethics protocol amendment to add the student name.
- An external protocol (i.e., the research will take place outside the [UoT REB](#)'s jurisdiction). Important note: **Securing external ethics can take many months** and could require an additional administrative review by the UoT REB. These protocols must be led by the advisor. Any necessary external ethics protocol must be submitted at the earliest convenience and no later than the course enrolment deadline.
